Experience

Experience Designer / projekt202

Jun 2018 - Present

Dallas, TX

- Design and test wireframes, create high-fidelity prototypes, contribute in user research, and define user needs through research and data.
- Collaborate with cross-disciplinary teams to ship consumer facing products by following an agile development model.
- Collaborate with creative directors and architects to update and maintain multiple design systems.

UX/UI Designer / beHuman

Feb 2018 - May 2018

Los Angeles, CA

- Conducted qualitative user research through user testing, and contextual inquiries.
- Created and tested design mockups through wireframes and prototypes to produce a mobile app.

UX Designer, Researcher, PM / Lantern Trips (Pro Bono)

Oct 2017 - Nov 2017

Los Angeles, CA

- Contributed to qualitative user research through user testing, interviews, and contextual inquiries.
- Designed and iterated on wireframes to create a minimum viable product.
- Collaborated with our client through a design studio to further validate key flows and features.
